

NAME

ubuntu-upload-permission – Query upload rights and (optionally) list the people and teams with upload rights for a package

SYNOPSIS

ubuntu-upload-permission [*options*] *package*

DESCRIPTION

ubuntu-upload-permission checks if the user has upload permissions for *package*. If the **--list-uploaders** option is provided, all the people and teams that do have upload rights for *package* will be listed.

OPTIONS

-r *RELEASE*, **--release=***RELEASE*

Query permissions in *RELEASE*. Default: current development release.

-a, **--list-uploaders**

List all the people and teams who have upload rights for *package*.

-t, **--list-team-members**

List all the members of every team with rights. (Implies **--list-uploaders**)

-h, **--help**

Display a help message and exit

EXIT STATUS

- 0** You have the necessary upload rights.
- 1** You don't have the necessary upload rights.
- 2** There was an error.
