

SYSTEMD-UPDATE-UTMP.SERVICE(8)systemd-update-utmp.servicSYSTEMD-UPDATE-UTMP.SERVICE(8)

NAME

systemd-update-utmp.service, systemd-update-utmp-runlevel.service, systemd-update-utmp – Write audit and utmp updates at bootup, runlevel changes and shutdown

SYNOPSIS

systemd-update-utmp.service

systemd-update-utmp-runlevel.service

/lib/systemd/systemd-update-utmp

DESCRIPTION

systemd-update-utmp-runlevel.service is a service that writes SysV runlevel changes to utmp and wtmp, as well as the audit logs, as they occur. systemd-update-utmp.service does the same for system reboots and shutdown requests.
