

NAME

pulseeffects – Audio effects for PulseAudio applications

SYNOPSIS

pulseeffects [*options*]...

This manual page documents briefly the **pulseeffects** commands.

pulseeffects is a graphical program that tweaks the audio effects system-wide or for individual PulseAudio applications.

OPTIONS

These programs follow the usual GNU command line syntax, with long options starting with two dashes ('-'). A summary of options is included below. For a complete description, invoke the program with **--help** option.

-h, --help

Show summary of options.
