

**NAME**

FcLangSetContains – check langset subset relation

**SYNOPSIS**

```
#include <fontconfig/fontconfig.h>
```

```
FcBool FcLangSetContains (const FcLangSet *ls_a, const FcLangSet *ls_b);
```

**DESCRIPTION**

**FcLangSetContains** returns FcTrue if *ls\_a* contains every language in *ls\_b*. *ls\_a* will 'contain' a language from *ls\_b* if *ls\_a* has exactly the language, or either the language or *ls\_a* has no territory.
