

NAME

Test::ScriptAge -- routines relating to the age of Perl scripts

SYNOPSIS

```
my $executable_epoch = Test::ScriptAge::our_modification_epoch();
print 'This script was last modified at ' . localtime($executable_epoch) . "\n"

my $perl_epoch = Test::ScriptAge::perl_modification_epoch();
print 'Perl was last modified at ' . localtime($perl_epoch) . "\n";
```

DESCRIPTION

Routines to calculated modification times of Perl scripts.
