

NAME

FcPatternIterValueCount – Returns the number of the values which the iterator point to

SYNOPSIS

```
#include <fontconfig/fontconfig.h>
```

```
int FcPatternIterValueCount (const FcPattern *p, FcPatternIter *iter);
```

DESCRIPTION

Returns the number of the values in the object which *iter* point to. if *iter* isn't valid, returns 0.

SINCE

version 2.13.1
