

**NAME**

FcConfigGetCacheDirs – return the list of directories searched for cache files

**SYNOPSIS**

```
#include <fontconfig/fontconfig.h>
```

```
FcStrList * FcConfigGetCacheDirs (const FcConfig *config);
```

**DESCRIPTION**

**FcConfigGetCacheDirs** returns a string list containing all of the directories that fontconfig will search when attempting to load a cache file for a font directory. If *config* is NULL, the current configuration is used.
