

**NAME**

lsattr – list file attributes on a Linux second extended file system

**SYNOPSIS**

**lsattr** [ **-RVadlpv** ] [ *files...* ]

**DESCRIPTION**

**lsattr** lists the file attributes on a second extended file system. See **chattr**(1) for a description of the attributes and what they mean.

**OPTIONS**

- R** Recursively list attributes of directories and their contents.
- V** Display the program version.
- a** List all files in directories, including files that start with ‘.’.
- d** List directories like other files, rather than listing their contents.
- l** Print the options using long names instead of single character abbreviations.
- p** List the file’s project number.
- v** List the file’s version/generation number.

**AUTHOR**

**lsattr** was written by Remy Card <Remy.Card@linux.org>. It is currently being maintained by Theodore Ts’o <tytso@alum.mit.edu>.

**BUGS**

There are none :-).

**AVAILABILITY**

**lsattr** is part of the e2fsprogs package and is available from <http://e2fsprogs.sourceforge.net>.
