

NAME

w3mman – an interface to the on-line reference manuals via w3m(1)

SYNOPSIS

w3mman [**-M** *path*] [[*section*] *page*]

w3mman [**-M** *path*] [*section*] **-k** *keyword*

w3mman **-l** *file*

DESCRIPTION

w3mman is a Perl script that uses **w3m**(1) to serve as a pager for on-line reference manuals.

OPTIONS

A summary of options is included below.

-M *path*

Specify *path* as alternative MANPATH to use.

-k *keyword*

Specify *keyword*.

-l *file* Specify a *file*.

ENVIRONMENT

Two variables are available for debugging.

W3MMAN_W3M

If W3MMAN_W3M is set, its value is used instead of w3m.

W3MMAN_MAN

If W3MMAN_MAN is set, its value is used instead of /usr/bin/man.

FILES

/usr/lib/w3m/cgi-bin/w3mman2html.cgi

manual page to HTML converter.

SEE ALSO

man(1), **w3m**(1).
