

NAME

FcFontSetList – List fonts from a set of font sets

SYNOPSIS

```
#include <fontconfig/fontconfig.h>
```

```
FcFontSet * FcFontSetList (FcConfig *config, FcFontSet **sets, int nsets, FcPattern *pattern, FcObjectSet *object_set);
```

DESCRIPTION

Selects fonts matching *pattern* from *sets*, creates patterns from those fonts containing only the objects in *object_set* and returns the set of unique such patterns. If *config* is NULL, the default configuration is checked to be up to date, and used.
