SYNOPSIS

rdma [*OPTIONS*] **dev** { *COMMAND* | **help** }

OPTIONS := { **-V**[*ersion*] | **-d**[*etails*] }

rdma dev show [*DEV*]

rdma dev set [*DEV*] **name** **NEWNAME**

rdma dev help

DESCRIPTION

rdma dev set - rename rdma device

rdma dev show - display rdma device attributes

DEV - specifies the RDMA device to show. If this argument is omitted all devices are listed.

EXAMPLES

rdma dev

Shows the state of all RDMA devices on the system.

rdma dev show mlx5_3

Shows the state of specified RDMA device.

rdma dev set mlx5_3 name rdma_0

Renames the mlx5_3 device to rdma_0.
