

NAME

FcStrStrIgnoreCase – locate UTF-8 substring ignoring ASCII case

SYNOPSIS

```
#include <fontconfig/fontconfig.h>
```

```
FcChar8 * FcStrStrIgnoreCase (const FcChar8 *s1, const FcChar8 *s2);
```

DESCRIPTION

Returns the location of *s2* in *s1*, ignoring case. Returns NULL if *s2* is not present in *s1*. This test is case-insensitive for all proper UTF-8 encoded strings.
