NAME

lsattr - list file attributes on a Linux second extended file system

SYNOPSIS

```
lsattr [ -RVadlpv ] [ files... ]
```

DESCRIPTION

lsattr lists the file attributes on a second extended file system. See **chattr**(1) for a description of the attributes and what they mean.

OPTIONS

- **-R** Recursively list attributes of directories and their contents.
- **-V** Display the program version.
- -a List all files in directories, including files that start with '.'.
- **-d** List directories like other files, rather than listing their contents.
- -l Print the options using long names instead of single character abbreviations.
- **-p** List the file's project number.
- -v List the file's version/generation number.

AUTHOR

lsattr was written by Remy Card <Remy.Card@linux.org>. It is currently being maintained by Theodore Ts'o <tytso@alum.mit.edu>.

BUGS

There are none:-).

AVAILABILITY

lsattr is part of the e2fsprogs package and is available from http://e2fsprogs.sourceforge.net.
