NAME
> dvipdf − Convert TeX DVI file to PDF using ghostscript and dvips

SYNOPSIS
> **dvipdf** [*options*] *input.dvi* [*output.pdf*] ...

DESCRIPTION
> This script invokes **dvips**(1) with the **-q** option, and pipes its output into **gs**(1) with the following options:

> **-q -dNOPAUSE -dBATCH -sDEVICE=pdfwrite**

> as well as **-sOutputFile** and any options from the command-line.

SEE ALSO
> gs(1), dvips(1)

VERSION
> This document was last revised for Ghostscript version 9.27.

AUTHOR
> Artifex Software, Inc. are the primary maintainers of Ghostscript. This manpage by George Ferguson.
