NAME
FcCharSetMerge − Merge charsets

SYNOPSIS
#include <fontconfig/fontconfig.h>

FcBool FcCharSetMerge (FcCharSet *a**, const FcCharSet ***b**, FcBool ***changed**);**

DESCRIPTION
Adds all chars in *b* to *a*. In other words, this is an in-place version of FcCharSetUnion. If *changed* is not NULL, then it returns whether any new chars from *b* were added to *a*. Returns FcFalse on failure, either when *a* is a constant set or from running out of memory.
