NAME
      FcCharSetCoverage − DEPRECATED return coverage for a Unicode page

SYNOPSIS
      #include <fontconfig/fontconfig.h>

      FcChar32 FcCharSetCoverage (const FcCharSet **a***, FcChar32***page***, FcChar32[8]***result***);**

DESCRIPTION
      DEPRECATED This function returns a bitmask in *result* which indicates which code points in *page* are included in *a*. **FcCharSetCoverage** returns the next page in the charset which has any coverage.
