NAME
FcPatternGet − Return a value from a pattern

SYNOPSIS
#include <fontconfig/fontconfig.h>

FcResult FcPatternGet (FcPattern *p**, const char ***object**, int** id**, FcValue ***v**);**

DESCRIPTION
Returns in *v* the *id*'th value associated with the property *object*. The value returned is not a copy, but rather refers to the data stored within the pattern directly. Applications must not free this value.
