NAME
ppa-purge − disables a PPA and reverts to official packages

SYNOPSIS
ppa-purge [-h | [-d <distribution>] [-s <host>] [-p <ppaname>] <ppa:<ppaowner[/ppaname>]>]

DESCRIPTION
This script provides a bash shell script capable of automatically downgrading all packages in a given PPA back to the ubuntu versions.

You have to run it using root privileges because of the package manager.

OPTIONS
-h   Display usage help.

-p *PPA name*
        Name of the PPA to be reset, the default value is ppa.

-s *PPA host*
        Address of the repository server, the default value is ppa.launchpad.net.
