NAME

FcConfigFileInfoIterNext − Set the iterator to point to the next list

SYNOPSIS

#include <fontconfig/fontconfig.h>

FcBool FcConfigFileInfoIterNext (**FcConfig ****config***, FcConfigFileInfoIter ****iter***);**

DESCRIPTION

Set 'iter' to point to the next node in the config file information list. If there is no next node, FcFalse is returned.

SINCE

version 2.12.91
