NAME

regsvr32 – Wine DLL Registration Server

SYNOPSIS

regsvr32 [**/u**] [**/s**] [**/n**] [**/i**[**:**_cmdline_]] _dllname_

DESCRIPTION

regsvr32 is the Wine dll registration server, designed to be compatible with its Microsoft Windows counter-part. By default, it will register the given dll.

COMMANDS

/u   Unregister the specified dll.

/s   Run regsvr32 silently (will not show any GUI dialogs).

/i   Call DllInstall passing it an optional _cmdline_. When used with **/u** calls DllUninstall.

/n   Do not call DllRegisterServer; this option must be used with **/i**.

BUGS

Bugs can be reported on the **Wine bug tracker** ⟨https://bugs.winehq.org⟩.

AVAILABILITY

regsvr32 is part of the Wine distribution, which is available through WineHQ, the **Wine development headquarters** ⟨https://www.winehq.org/⟩.
