NAME
FcDirCacheLoad − load a directory cache

SYNOPSIS
#include <fontconfig/fontconfig.h>

FcCache * FcDirCacheLoad (const FcChar8 ***dir, FcConfig ***config**, FcChar8 ****cache_file**);**

DESCRIPTION
Loads the cache related to *dir*. If no cache file exists, returns NULL. The name of the cache file is returned in *cache_file*, unless that is NULL. See also FcDirCacheRead.
