NAME

Ref::Util::PP − pure−Perl version of Ref::Util

VERSION

version 0.204

SYNOPSIS

```
use Ref::Util;
```

DESCRIPTION

This module provides a pure-Perl implementation of the functions in Ref::Util.

Ref::Util:PP will be used automatically if Ref::Util is installed on a system with no C compiler, but you can force its usage by setting either `$Ref::Util::IMPLEMENTATION` or the `PERL_REF_UTIL_IMPLEMENTATION` environment variable to `PP`.
