NAME

   FcStrSetAddFilename − add a filename to a string set

SYNOPSIS

   #include <fontconfig/fontconfig.h>

   FcBool FcStrSetAddFilename (FcStrSet **set***, const FcChar8 ****s***);**

DESCRIPTION

   Adds a copy *s* to *set*, The copy is created with FcStrCopyFilename so that leading '˜' values are replaced
   with the value of the HOME environment variable.
