NAME
>   sensible-editor, sensible-pager, sensible-browser – sensible editing, paging, and web browsing

SYNOPSIS
>   **sensible-editor** [OPTIONS...]
>   **sensible-pager** [OPTIONS...]
>   **sensible-browser** url

DESCRIPTION
>   **sensible-editor**, **sensible-pager** and **sensible-browser** make sensible decisions on which editor, pager, and web browser to call, respectively. Programs in Debian can use these scripts as their default editor, pager, or web browser or emulate their behavior.

SEE ALSO
>   Documentation of the EDITOR, VISUAL and PAGER variables in **environ**(7) and **select-editor**(1) for changing a user's default editor

STANDARD
>   Documentation of behavior of sensible-utils under a debian system is available under section 11.4 of debian-policy usually installed under /usr/share/doc/debian-policy (you might need to install debian-policy)
