NAME
       FcConfigGetConfigDirs − Get config directories

SYNOPSIS
       #include <fontconfig/fontconfig.h>

       FcStrList * FcConfigGetConfigDirs (FcConfig *config**);**

DESCRIPTION
       Returns the list of font directories specified in the configuration files for *config*. Does not include any sub-
       directories. If *config* is NULL, the current configuration is used.
